Theodorou Apostolos Ph.D is a lecturer of Athletics at the Department of Physical Education and Sport Sciences at the National University of Athens. Graduate of Physical Education from the University of Athens in 1992. In 1994 completed his M.sc. in Sports Coaching at the University of Sheffield in U.K. In 1998 he was awarded with the Young Investigators award at the 3rd Annual Congress of the European College of Sports and Exercise Science. He completed his Ph.D in 2001 at Leeds Metropolitan University in U.K investigating several aspects associated with the use of creatine supplements as performance aid in a range of sports and on different athletic populations (sedentary and elite). His current research interests focus on Athletics’ jumps and more specifically on stride regulation patterns of visually impaired athletes.
